

За отчетный период вышли 1-е и 2-е номера 43-го тома журнала Труды Института Математики и Механики НАН Азербайджана. В первом номере опубликовано 10, а во втором 15 статей авторов из Азербайджана, Турции, Грузии, Алжир и Китайской Народной Республики. Кроме того опубликован перевод 1-го номера 43-го тома журнала.

В 1-й номер 43-го тома вошли следующие статьи:

A survey on multinormed von Neumann algebras	3 – 67
by Anar Dosi	
On nonlinear beam equation with indefinite weight	68 – 78
by Ziyatkhan S. Aliyev and Khayala B. Mehtiyeva	
Higher order conditions in nondifferentiable programming problems	79 – 97
by Misraddin A. Sadygov	
Cubature formula for a class of surface integrals generated by weakly-singular integrals	98 – 104
by Rahib J. Heydarov	
On the Tietze extension theorem in soft topological spaces	105 – 115
by Cigdem Gunduz Aras and Sadi Bayramov	
On ϕ-solvability of a class of boundary value problems for an operator-differential equation in Hilbert space	116 – 122
by Sabir S. Mirzoev and Sevinj F. Babayeva	
Travelling-wave solutions for Klein-Gordon and Helmholtz equations on Cantor sets	123 – 131
by Xiao-Jun Yang, Yusif S. Gasimov, Feng Gao and Natavan Allahverdiyeva	
On discreteness of negative part of spectrum and estimates for the number of eigen values of second order equation with operator coefficients on the semi-axis	132 – 145
by Hamidulla I. Aslanov and Nigar A. Gadirli	
On the well-posedness of the Cauchy problem for a class of differential equations with distributed delay and the continuous initial condition	146 – 160
by Ph. Dvalishvili, A. Nachaoui, M. Nachaoui and T. Tadumadze	
Problems of q-lifts	161 – 170
by Arif Salimov and Rabia Cakan	

В 2-й номер 43-го тома вошли следующие статьи:

Approximation by linear means of Fourier series in weighted Orlicz spaces	175 – 187
by Sadulla Z. Jafarov	
On multiple completeness of eigen and associated vectors of a class of operator	188 – 196

pencils by Sabir S. Mirzoyev and Hasan I. Zamanov	
Elliptic equations with measurable coefficients in generalized weighted Morrey spaces by Ahmet Eroglu, Mehriban N. Omarova and Shemsiyye A. Muradova	197 – 213
Upper and lower solutions method for fractional oscillation equations by Rabah Khaldi and Assia Guezane-Lakoud	214 – 220
Pointwise Bernstein-Walsh-type inequalities in regions with cusps in the Lebesgue space by T. Tunç, G. A. Abdullayev and A. Z. Sonay	221 – 232
The well-posedness of the Cauchy problem for a system of thermoelasticity with singular coefficients by Akbar B. Aliev and Gunay R. Gadirova	233 – 239
Riemann boundary value problems in generalized weighted Hardy spaces by Bilal T. Bilalov, Ali A. Huseynli and Fidan Sh. Seyidova	240 – 251
Convergence of biorthogonal expansion of a function from the class $W_2^1(G)$ in eigen and associated functions of even order ordinary differential operator by Vali M. Kurbanov and Khadija R. Gojayeva	252 – 260
Solvability of boundary value problems for fourth order differential-operator equation with a parameter by Bahram A. Aliev	261 – 269
On the structure of global continua of solutions bifurcating from infinity of some nonlinear fourth order eigenvalue problems by Natavan A. Mustafayeva	270 – 277
On magnetic curves in the 3-dimensional Heisenberg group by Cihan Özgür	278 – 286
Berezin symbols, Hölder-McCarthy and Young inequalities and their applications by Mubariz T. Garayev	287 – 295
The absence of global solutions of a system of semilinear parabolic equations with a singular potential by Shirmail G. Bagirov	296 – 304
Vector and affiner fields on cross-sections in the semi-cotangent bundle by Furkan Yıldırım, Manouchehr Behboudi Asl and Fidan Jabrailzade	305 – 315
A new approximate method for solving hypersingular integral equations with Hilbert kernel by Chinara A. Gadjeva	316 – 329
