

Semi-annual report of the journal Proceedings of the Institute of Mathematics and Mechanics, NASA for 2021

During the reporting period, it was issued the first number of volume 47 of the journal Proceedings of the Institute of Mathematics and Mechanics of National Academy of Sciences of Azerbaijan. The first issue contains 15 by authors from Azerbaijan, Turkey, India, Uzbekistan, Algeria, and Iran.

The first number of volume 47 includes the following articles:

|  |           |
|--|-----------|
| <a href="#"><u>Existence and Uniqueness of Solutions for a Nabla Fractional Boundary Value Problem with Discrete Mittag-Leffler Kernel</u></a>     | 3 – 14    |
| by Jagan Mohan Jonnalagadda and Dumitru Baleanu  |           |
| <a href="#"><u>On strong solvability of the Dirichlet problem for a class of semilinear elliptic equations with discontinuous coefficients</u></a> | 15 – 23   |
| by Farman I. Mamedov and Shahla Yu. Salmanova  |           |
| <a href="#"><u>A stabilized discontinuous Galerkin method for the nonlinear advection-diffusion processes</u></a>                                  | 24 – 45   |
| by Huseyin Tunc and Murat Sari   |           |
| <a href="#"><u>Bifurcation in nonlinear Sturm-Liouville problems with indefinite weight and spectral parameter in the boundary condition</u></a>   | 46 – 54   |
| by Ulkar V. Gurbanova  |           |
| <a href="#"><u>Direct and Inverse Theorems in Variable Exponent Smirnov Classes</u></a>  | 55 – 66   |
| by Daniyal M. Israfilov and Elife Gursel   |           |
| <a href="#"><u>Para-complex structures on linear coframe bundle with Sasakian metric</u></a>   | 67 – 77   |
| by Habil Fattayev  |           |
| <a href="#"><u>A New Planar Bezier-Like Spiral Defined by Exponential Functions And Transition Curves</u></a>                                      | 78 – 98   |
| by Asli Ayar and Bayram Sahin  |           |
| <a href="#"><u>Iterative Continuous Collocation Method for Solving nonlinear Volterra Integro-differential Equations</u></a>                       | 99 – 111  |
| by Azzeddine Bellour and Khaoula Rouibah   |           |
| <a href="#"><u>On a boundary value problem for a mixed type fractional differential equations with parameters</u></a>                              | 112 – 123 |
| by Tursun K. Yuldashev and Bakhtiyor J. Kadirkulov   |           |
| <a href="#"><u>Intuitionistic Fuzzy Topology on Soft Sets</u></a>  | 124 – 137 |

|  |           |
|--|-----------|
| by Sadi Bayramov, Cigdem Gunduz and Kemale Veliyeva  |           |
| <a href="#">A note on the Schrodinger operator with exponential potential</a>  | 138 – 142 |
| by Agil Kh. Khanmamedov and Afag F. Mamedova   |           |
| <a href="#">On Kolmogorov type inequalities for the norms of operators of intermediate derivatives in the space of smooth vector functions on a finite segment</a> | 143 – 155 |
| by Hamidulla I. Aslanov and Gunel M. Eyvazly   |           |
| <a href="#">An optimal Galerkin-homotopy asymptotic method applied to the nonlinear second-order BVPs</a>  | 156 – 182 |
| by Jalil Manafian  |           |
| <a href="#">On a problem of synthesis of control of power of the moving sources on heating of a rod</a>  | 183 – 196 |
| by Kamil R. Aida-zade, Vugar A. Hashimov and Arzu H. Bagirov   |           |
| <a href="#">Hidayat Mahammad oglu Huseynov — 70</a>  | 197 – 199 |
