

During the reporting period it was issued the 1st and the 2nd number of volume 41 of the journal Proceedings of the Institute of Mathematics and Mechanics of National Academy of Sciences of Azerbaijan. The first issue contains 15 and the second issue contains 12 articles by authors from Azerbaijan, Turkey and Russia. Besides, it was issued the translation of the 2-nd number of volume 40.

The 1st number of volume 41 includes the following articles:

On properties of the generalized Besov-Morrey spaces with dominant mixed derivatives by Alik M. Najafov and Aygun T. Orujova	3 – 15
Inverse Scattering Problem for a Piecewise Continuous Sturm-Liouville Equation with Eigenparameter Dependence in the Boundary Condition by Khanlar R. Mamedov, Nida P. Kosar and F. Ayca Cetinkaya	16 – 24
On a special class of semi-cotangent bundle by Furkan Yıldırım	25 – 38
Constructing extremal elements in approximation by sums of univariate functions by Arzu M.-B. Babayev and Ibrahim K. Maharov	39 – 43
Boundedness of the multilinear fractional integral operators with rough kernel on Morrey spaces by Emin V. Guliyev, Amil A. Hasanov and Zaman V. Safarov	44 – 55
On the properties of Q - and Q' -integrals of the function measurable on the real axis by Rashid A. Aliev	56 – 62
A boundary value problem for elliptic-differential operator equations with a spectral parameter in the equation and in the boundary conditions by Nargul K. Kurbanova	63 – 76
Multi-sublinear rough fractional maximal operator on product modified Morrey spaces by Sabir G. Hasanov	77 – 87
Trajectories that have points at infinity as limit sets for dynamical systems on the plane by Maxim V. Shamolin	88 – 93
On behavior at infinity of the solutions of a semilinear elliptic equation of second order by Shirmail G. Bagirov	94 – 103
Finiteness of the negative spectrum of the one-dimensional magnetic Schrödinger operator by Elshad H. Eyvazov	104 – 112
Necessary optimality conditions of quasi-singular controls in optimal control by Misir J. Mardanov and Kamil B. Mansimov	113 – 122
Coercive estimate for degenerate elliptic parabolic equations by Tahir S. Gadjev and Mehriban N. Kerimova	123 – 134
Spectral properties for the equation of vibrating beam by Ziyatkhan S. Aliyev and Sevinc B. Guliyeva	135 – 145
Alternating algorithm for the approximation by sums of two compositions and ridge functions by Vugar E. Ismailov	146 – 152

The 2nd number of volume 41 includes the following articles:

On history of development of optimal control theory in Azerbaijan	3 – 21
by Misir J. Mardanov	
Some spectral properties of the boundary value problem with spectral parameter in the boundary conditions	22 – 35
by Ziyatkhan S. Aliyev and Fatima-khanim I. Allahverdi-zada	
Global bifurcation of solutions of nonlinear one-dimensional Dirac system	36 – 46
by Humay Sh. Rzayeva	
Some remarks on nonlinear hyperbolic equation	47 – 62
by Kamal N. Soltanov	
Para-Nordenian structures on the cotangent bundle with respect to the Cheeger-Gromoll metric	63 – 69
by Filiz Ocak	
On the equivalent bases of cosines in generalized Lebesgue spaces	70 – 76
by Zaur A. Kasumov and Chingiz M. Hashimov	
Basis properties in the space $L_p(0,1)$ of root functions of the boundary value problem with spectral parameter in the boundary conditions	77 – 82
by Aida A. Dunyamaliyeva	
Switching lumped controls	83 – 90
by Ali Hamidoglu	
On approximate solution of a singular integral equation of Neumann's external boundary value problem for a wave equation	91 – 105
by Elnur H. Khalilov	
On the representation by sums of ridge functions	106 – 118
by Rashid A. Aliev, Vugar E. Ismailov and Tarana M. Shahbalayeva	
A sufficiency condition for the weighted Poincare's type inequality	119 – 123
by Vafa A. Mamedova	
Variational principle for two-parameter spectral problem under left definiteness condition	124 – 129
by Eldar Sh. Mamedov	
Sasun Yakubovich Yakubov — 80
