

During the reporting period it was issued the 1st and the 2nd numbers of volume 42 of the journal Proceedings of the Institute of Mathematics and Mechanics of National Academy of Sciences of Azerbaijan. The first issue contains 12 and the second issue contains 13 articles by authors from Azerbaijan, Turkey, USA and Saudi Arabia. Besides, it was issued the translation of the 1-st number of volume 42. This year the journal is listed in "Emerging Sources Citation Index" (Thomson Reuters). The 1st number of volume 42 includes the following articles:

On solvability of an external problem with impedance boundary condition for Helmholtz equation by integral equations method by Rahib J. Heydarov	3 – 9
A variation of the $L^p$ uncertainty principles for the Fourier transform by Fethi Soltani and Jaber Ghazwani	10 – 24
Trigonometric approximation in weighted Orlicz spaces by Yunus Emre Yildirim and Ramazan Cetintas	25 – 37
Lie derivatives of almost contact structure and almost paracontact structure with respect to $X^V$ and $X^H$ on tangent bundle $T(M)$ by Haşim Çayır	38 – 49
A new constructive method for solving of bisingular integral equations with Cauchy kernel by Chinara A. Gadjieva	50 – 66
On smooth solutions of a class of boundary value problems on a finite segment for second order equations with operator coefficients by Elshad G. Gamidov	67 – 72
On asymptotic behavior of local probabilities of nonlinear boundary crossing by a random walk by Fada G. Rahimov, Tarana E. Hashimova and Vugar S. Khalilov	73 – 80
Multilinear fractional integral operators with rough kernel on modified Morrey spaces by Elmira A. Gadjieva, Amil A. Hasanov and Zaman V. Safarov	81 – 92
Formula for second regularized trace of the Sturm-Liouville equation with spectral parameter in the boundary conditions by Hajar F. Movsumova	93 – 105
Necessary conditions of Riesz property of root vector-functions of Dirac discontinuous operator with summable coefficient by Leyla Z. Buksayeva	106 – 115
Global bifurcation of a second order nonlinear elliptic problem with an indefinite weight function by Ziyatkhan S. Aliyev and Shanay M. Hasanova	116 – 125
Approximation of analytic functions by sequences of linear operators in a polydisc	126 – 133

by Rashid A. Aliev

Outstanding mathematician and pedagogue (To the 100-th anniversary of Majid Rasulov) 134 – 138

The 2nd number of volume 42 includes the following articles:

On determination of Sturm-Liouville operator with discontinuity conditions with respect to spectral data	143 – 153
by Hidayat M. Huseynov and Famil Z. Dostuyev	
The "algebraic zero" condition for orthogonal polynomials over a contour in the weighted Lebesgue spaces	154 – 173
by Fahreddin G. Abdullayev and Gulnare A. Abdullayeva	
On finding right hand sides of equations of flexural-torsional vibrations of a bar	174 – 187
by Gamlet F. Kuliev and Aysel T. Ramazanova	
Global existence, asymptotic behavior and blow-up of solutions for mixed problem for the coupled wave equations with nonlinear damping and source terms	188 – 201
by Akbar B. Aliev and Samira O. Rustamova	
Global bifurcation from principal eigenvalues for nonlinear fourth order eigenvalue problem with indefinite weight	202 – 211
by Rada A. Huseynova	
A multiscale discontinuous Galerkin method in perforated domains	212 – 229
by Eric T. Chung, Yalchin Efendiev, Maria Vasilyeva and Yating Wang	
On asymptotic behavior of eigenvalues and eigenfunctions of a Sturm--Liouville type boundary value problem with retarded argument	230 – 248
by Hamidulla I. Aslanov and Novrasta S. Abdullayeva	
A note on the completeness and minimality of weighted trigonometric systems	249 – 256
by Aydin Sh. Shukurov	
On the fractional order weighted Hardy inequality for monotone functions	257 – 264
by Farman I. Mamedov and Sayali Mammadli	
Some examples of extremal functions on the Fock space $F(\mathbb{C})$	265 – 272
by Fethi Soltani	
On almost complex structures in covariant tensor bundles	273 – 278
by Seher Aslançı	
Some convolution inequalities in Musielak Orlicz spaces	279 – 291
by Ramazan Akgün	
On Laurent coefficients of Cauchy type integrals of finite complex measures	292 – 303
by Rashid A. Aliev
