

REPORT
of «International relations» Department
of Institute of Mathematics and Mechanics of Azerbaijan NAS
for the half year 2019

During the reporting period, the international relations Department performed its activities in accordance with scientific and scientific-organizational themes of the Institute of mathematics and mechanics, Academy of Sciences of Azerbaijan and the international relations office of ANAS.

Within the framework of international events held by the national Academy of Sciences of Azerbaijan, the Department developed opportunities for establishing and developing cooperation and international relations between scientists of the Institute and foreign research centers. During the report, the Department provided organizational and scientific assistance to the Institute's employees in the framework of participation in competitions (grants) funded by international funds.

Information among the Institute's researchers was brought to the researchers and assistance was provided for participation in a number of international scientific programs and competitions:

1. On January 17, 2019, the staff of the Institute took part in the presentation of the UNESCO HORIZON 2020 scholarship program.
2. Institute scientists took part in the workshop of "Recommendations for writing articles in international scientific journals", organized by Clarivate Analytics (Thomson Reuters). The seminar covered journals for access to the Web of Science platform, as well as publication requirements, rules for submission of scientific articles, selection criteria and other practical issues.
3. In March 2019, the Institute (Department of fluid Mechanics) prepared and submitted proposals for participation in the program under the operational plan for Individual Partnership (FTAP) between Azerbaijan and NATO.

4. Director of the Institute corresponding member of ANAS prof. Misir Mardanov signed a Memorandum of understanding between Ulyanovsk state pedagogical University and the Institute of mathematics and mechanics.

During the reporting period, researchers of the Institute of mathematics and mechanics took part in foreign conferences and symposiums, as well as were sent to a number of leading foreign research centers and universities:

1. Aliyev Soltan Ali oglu-doctor of physical and mathematical Sciences, Professor, 23.01.2019-05.02.2019, Egypt, participation in the international conference.
