Semi-annual report of "Transactions of Azerbaijan National Academy of Science, series of physico -technical and mathematical sciences, issue mathematics" for the year of 2020

The site of the journal Transactions of Azerbaijan National Academy of Science, series of physico - technical and mathematical sciences, issue mathematics (sayt-www.trans.imm.az; e-mail-transactions@imm.az) is daily uptated. The published papers are placed in the site. We regularly keep close relations with the members of the editorial board of the journal by e-mail. This year one issue of the journal (**40 (1), 2020**-June) was published and placed in the site. The works on publication of the next issue continue**.**

The journal has joined international agency as Jurnal Scopus, MathSciNet, Math-Net.Ru.

We keep close relations with foreign authirs and do works this journal to find its place in international agencies as Thomson Reuters.

Volume 40 (2020), Issue 1

MATHEMATICS

Spanne-type characterization of parabolic fractional integral and its commutators in parabolic generalized Orlicz-Morrey spaces — 3 – 15
by Gulnara A. Abasova

Transformation operators for the Schrodinger equation with a linearly increasing potential — 16 – 20
by Khatira E. Abbasova, Agil Kh. Khanmamedov

An analogue of the Riesz theorem in Hardy-Morrey classes — 21 – 27
by Miran I. Aleskerov

Mixed problem for one-dimensional wave equation with dynamic boundary condition — 28 – 40
by Akbar B. Aliev, Samira O. Rustamova

The Cech homology theory in the category of soft topological spaces — 41 – 51
by Cigdem Gunduz Aras, Sebuhi Abdullayev

Existence of solutions for a resonant problem under Landesman-Lazer type conditions involving more general elliptic operators in divergence form — 52 – 65
by Rabil Ayazoglu (Mashiyev), Sidika Sule Sener, Tuba Agırman Aydın

Fractional maximal operator and its higher order commutators in generalized weighted Morrey spaces on Heisenberg group — 66 – 78

by Javanshir V. Azizov

Non-existence of global solution of a semi-linear parabolic equation with a singular potential 79 – 87
by Shirmail G. Bagirov, K.A. Guliyev

On uniform equiconvergence for Dirac type 2m \times 2m systems 88 – 95
by Gunel R. Hajiyeva

Maximal operator with rough kernel and its commutators in generalized weighted Morrey spaces 96 – 110
by Vugar H. Hamzayev

On the boundedness of the G-maximal operator and G-Riesz potential in the generalized G-Morrey spaces 111 – 125
by Ibrahimov Elman J., Gulqayit A. Dadashova, S.E. Ekincioglu

On the characterization of tripled partial metrics and tripled quasi-metrics 126 – 134
by Khalilzadeh Ranjbar Ghorban, Mohammad Esmael Samei

On embeddings into the Morrey and modified Morrey spaces in the Dunkl setting 135 – 145
by Fatma A. Muslumova

On global continua of solutions bifurcating from zero and infinity of some nonlinear fourth order eigenvalue problems 146 – 151
by Natavan A. Mustafayeva

Analytical expressions for curved surface area of revolution and arc-length of an ellipse: A hypergeometric mechanism 152 – 160
by M.I. Qureshi, Naved Akhtar, Dilshad Ahamad

An exponentially fitted scheme for solving singularly perturbed delay problems 161 – 176
by Rakesh Ranjan, H.S. Prasad

Asymptotics of solution of a boundary value problem for a singularly perturbed quasilinear one-characteristic equation 176 – 186
by Mahir M. Sabzaliev, Mahbuba E. Kerimova

Neutrosophic G-modules 187 – 195
by Kemale Veliyeva

Baş redaktor **AMEA-nın müxbir üzvü, prof. V.S. QULİYEV**
