Hesabat ilində AMEA Riyaziyyat və Mexanika İnstitutunun Əsərləri jurnalının 46-cı cildinin 1-ci və 2-ci nömrələri çapdan çıxmışdır. Birinci və ikinci nömrədə hər birində 13 məqalə olmaqla Azərbaycan, Avstraliya, Argentina, Əlcəzair, İran, Rusiya, Türkiyə, İtaliya, Latviya, Ukrayna, Cənubi Afrikadan olan müəlliflərin məqalələri dərc edilmişdir.

Jurnalın 46-cı cildinin 1-ci nömrəsində çap edilmiş məqalələr bunlardır:

On the generalized mixed Schwarz inequality 3 – 15
by Mohammad W. Alomari

On local uniform equiconvergence rate for the Dirac operator 16 – 31
by Vali M. Kurbanov and Afsana M. Abdullayeva

On the basicity of eigenfunctions of a second-order differential operator with a discontinuity point in weighted Lebesgue spaces 32 – 44
by Telman B. Gasymov, Azamat M. Akhtyamov and Nigar R. Ahmedzade

Conformal Ricci solitons of Lagrangian submanifolds in K\"{a}hler manifolds 45 – 55
by Mohd. Danish Siddiqi

The sheaves representation of Hausdorff spectra 56 – 67
by Eugeny I. Smirnov, Sergey A. Tikhomirov and Elena A. Zubova

Local solvability of the $\overline{\partial}$-equations on I^{2} 68 – 78
by Kheira Memchout and Abdallah Talhaoui

Characterization of continuous g-frames via operators 79 – 93
by Morteza Rahmani

An application of the inverse scattering problem for the discrete Dirac operator 94 – 101
by Rza I. Aleskerov

Operators on controlled K-g-frames in Hilbert spaces 102 – 114
by Maryam Forughi, Elnaz Osgooei, Asghar Rahimi and Mojgan Javahernia

On duality in optimal control problems with second-order differential inclusions and initial-point constraints 115 – 128
by Elimhan N. Mahmudov and Misir J. Mardanov

Maximal and potential operators associated with Gegenbauer differential operator on generalized Morrey spaces 129 – 143
by Elman J. Ibrahimov, Saadat A. Jafarova and S. Elifnur Ekincioglu

A new approach for solving nonlinear Volterra integro-differential equations with Mittag--Leffler kernel 144 – 158
by Roghayeh Moallem Ganji and Hossein Jafari

On Fredholm property of a boundary value problem for third order operator-differential equations 159 – 166
by Seadat B. Heydarova

Jurnalın 46-cı cildinin 2-ci nömrəsində çap edilmiş məqalələr bunlardır:

On negative eigenvalues of the Schr\"{o}dinger operator 171 – 179
by Elshad H. Eyvazov and Davud H. Orujov

Some Fixed Point Theorems on Compact Modular Metric Spaces 180 – 188
by K\"{u}bra \"{O}zkan, Utku G\"{u}rdal and Ali Mutlu

Some properties of the spectrum of the Dirac operator with a spectral parameter in the boundary condition 189 – 196
by Abid G. Ferzullazadeh and Ibrahim M. Nabiev

Some inequalities for weighted and integral means of convex functions on linear spaces 197 – 209
by Silvestru Sever Dragomir

Investigation of the periodicity and stability in the neutral differential systems by using Krasnoselskii's fixed point theorem 210 – 225
by Abderrahim Guerfi and Abdelouaheb Ardjouni

On the uniform convergence of Fourier series expansions in the system of eigenfunctions of the equation of a vibrating rod at one end of which the mass is concentrated 226 – 242
by Konul F. Abdullayeva, Ziyatkhan S. Aliyev and Nazim B. Kerimov

Global boundedness and stability of solutions of nonautonomous degenerate differential equations 243 – 271
by Maria S. Filipkovska (Filipkovskaya)

On the particular solution of the nonhomogeneous Riemann problem in the weighted Smirnov classes with the general weight 272 – 283
by Sabina R. Sadigova

Discrete maximum principle in systems with a delay in control 284 – 293
by Misir J. Mardanov and Samin T. Malik

Controllability of fractional stochastic delay dynamical systems 294 – 320
by Arzu Ahmadova, Ismail T. Huseynov and Nazim I. Mahmudov

On some properties of limit cycles of the Biryukov equation 321 – 345
by Yusif S. Gasimov, Sharif E. Guseynov and Juan E. N\'apoles Vald\'es
The second order of ADS for reverse parabolic boundary value problem with integral condition 346 – 359
by Charyyar Ashyralyyev
Fractal similarities between the distribution of primes and nucleotides in DNA 393 – 360
by Carlo Cattani
