

During the reporting period, it was issued the 1st and the 2nd numbers of volume 46 of the journal Proceedings of the Institute of Mathematics and Mechanics of National Academy of Sciences of Azerbaijan. The first issue contains 13 and the second issue contains 13 articles by authors from Azerbaijan, Turkey, Australia, Argentina, Italy, Latvia, Ukraine, Algeria, Iran and South Africa.

The 1st number of volume 46 includes the following articles:

On the generalized mixed Schwarz inequality by Mohammad W. Alomari	3 – 15
On local uniform equiconvergence rate for the Dirac operator by Vali M. Kurbanov and Afsana M. Abdullayeva	16 – 31
On the basicity of eigenfunctions of a second-order differential operator with a discontinuity point in weighted Lebesgue spaces by Telman B. Gasymov, Azamat M. Akhtyamov and Nigar R. Ahmedzade	32 – 44
Conformal Ricci solitons of Lagrangian submanifolds in $K^{\{a\}}$ manifolds by Mohd. Danish Siddiqi	45 – 55
The sheaves representation of Hausdorff spectra by Eugeny I. Smirnov, Sergey A. Tikhomirov and Elena A. Zubova	56 – 67
Local solvability of the $\overline{\partial}$-equations on \mathbb{Y}^2 by Kheira Memchout and Abdallah Talhaoui	68 – 78
Characterization of continuous g-frames via operators by Morteza Rahmani	79 – 93
An application of the inverse scattering problem for the discrete Dirac operator by Rza I. Aleskerov	94 – 101
Operators on controlled K-g-frames in Hilbert spaces by Maryam Forughi, Elnaz Osgoeei, Asghar Rahimi and Mojgan Javahernia	102 – 114
On duality in optimal control problems with second-order differential inclusions and initial-point constraints by Elimhan N. Mahmudov and Misir J. Mardanov	115 – 128
Maximal and potential operators associated with Gegenbauer differential operator on generalized Morrey spaces by Elman J. Ibrahimov, Saadat A. Jafarova and S. Elifnur Ekincioglu	129 – 143
A new approach for solving nonlinear Volterra integro-differential equations with Mittag-Leffler kernel by Roghayeh Moallem Ganji and Hossein Jafari	144 – 158
On Fredholm property of a boundary value problem for third order operator-differential equations by Seadat B. Heydarova	159 – 166

The 2nd number of volume 46 includes the following articles:

<u>On negative eigenvalues of the Schrödinger operator</u>	171 – 179
by Elshad H. Eyvazov and Davud H. Orujov	
<u>Some Fixed Point Theorems on Compact Modular Metric Spaces</u>	180 – 188
by Kobra Ozkan, Utku Gurdal and Ali Mutlu	
<u>Some properties of the spectrum of the Dirac operator with a spectral parameter in the boundary condition</u>	189 – 196
by Abid G. Ferzullazadeh and Ibrahim M. Nabiev	
<u>Some inequalities for weighted and integral means of convex functions on linear spaces</u>	197 – 209
by Silvestru Sever Dragomir	
<u>Investigation of the periodicity and stability in the neutral differential systems by using Krasnoselskii's fixed point theorem</u>	210 – 225
by Abderrahim Guerfi and Abdelouaheb Ardjouni	
<u>On the uniform convergence of Fourier series expansions in the system of eigenfunctions of the equation of a vibrating rod at one end of which the mass is concentrated</u>	226 – 242
by Konul F. Abdullayeva, Ziyatkhon S. Aliyev and Nazim B. Kerimov	
<u>Global boundedness and stability of solutions of nonautonomous degenerate differential equations</u>	243 – 271
by Maria S. Filipkovska (Filipkovskaya)	
<u>On the particular solution of the nonhomogeneous Riemann problem in the weighted Smirnov classes with the general weight</u>	272 – 283
by Sabina R. Sadigova	
<u>Discrete maximum principle in systems with a delay in control</u>	284 – 293
by Misir J. Mardanov and Samin T. Malik	
<u>Controllability of fractional stochastic delay dynamical systems</u>	294 – 320
by Arzu Ahmadova, Ismail T. Huseynov and Nazim I. Mahmudov	
<u>On some properties of limit cycles of the Biryukov equation</u>	321 – 345
by Yusif S. Gasimov, Sharif E. Guseynov and Juan E. N'apoles Vald'es	
<u>The second order of ADS for reverse parabolic boundary value problem with integral condition</u>	346 – 359
by Charyyar Ashyralyev	
<u>Fractal similarities between the distribution of primes and nucleotides in DNA</u>	393 – 360
by Carlo Cattani
