

Riyaziyyat və Mexanika İnstitutunun Əsərləri jurnalının 2023-cü il üçün yarımillik hesabatı

2023-cü ilin birinci yarısında Riyaziyyat və Mexanika İnstitutunun Əsərləri jurnalının 49-cu cildinin 1-ci nömrəsi çapdan çıxmışdır. Bu nömrədə Azərbaycan, Türkiyə, Gürcüstan və Fransadan olan müəlliflərin 12 məqaləsi dərc edilmişdir.

Jurnalın 49-cu cildinin 1-ci nömrəsində çap edilmiş məqalələr aşağıdakılardır:

- | | |
|---|-----------|
| Optimization of the Nicoletti Boundary Value Problem for Second-order Differential Inclusions | 3 – 13 |
| by Elimhan N. Mahmudov and Misir J. Mardanov | |
| On basicity of perturbed system of exponents in Grand-Lebesgue spaces | 14 – 27 |
| by Mıqdad I. İsmailov, Vafa Q. Alili and İlakha F. Aliyarova | |
| Global bifurcation from zero in nondifferentiable perturbations of half-linear fourth-order eigenvalue problems | 28 – 37 |
| by Masuma M. Mammadova | |
| Difference approximation of the inverse problem of determining the highest coefficient in a parabolic equation with integral conditions | 38 – 49 |
| by Rafiq K. Tagiyev and Shahla I. Maharramli | |
| Long-run behavior of multivariate means | 50 – 59 |
| by Nadia Hamida and Anis Rezgui | |
| Some Parseval-Goldstein type identities with illustrative examples | 60 – 68 |
| by Hilal Basak Karatas, Durmus Albayrak and Faruk Ucar | |
| Commutators of classical operators in a new vanishing Orlicz-Morrey space | 69 – 77 |
| by Fatih Deringoz, Kendal Dorak and Farah Mislal | |
| Exponential Stability of BAM-type Neural Networks with Conformable Derivative | 78 – 94 |
| by Aysen Kutahyalıoglu and Fatma Karakoc | |
| Applications of Cesaro Submethod to Approximation of Functions in Weighted Orlicz Spaces | 95 – 108 |
| by Sadulla Z. Jafarov | |
| On the growth of m-th derivatives of algebraic polynomials in regions with corners in a weighted Bergman space | 109 – 153 |
| by P. Ozkartepe and F. G. Abdullayev | |
| The boundary value problem for one class of higher-order semilinear partial differential equations | 154 – 171 |
| by S. Kharibegashvili and B. Midodashvili | |

[Free rotational dynamics of an homogeneous ellipsoid with a stochastic flattening](#)

172 – 188

by Etienne Behar, Jacky Cresson and Frederic Pierret
